

LINEAR AIR BARS (LAB)

High volume air flow where quiet, performance and aesthetics are essential.

- High performing and quiet
- Aesthetically pleasing
- Versatile airflow capabilities
- Jet Pair model for maximum air flows

Linear Air Bars have quickly become one of our fastest growing product lines. It might be because we've been told we make some of the finest continuous lengths in the industry, or because our independently-tested performance is top shelf.

When you select Shoemaker, you can expect aesthetically pleasing craftsmanship, from clean borders to our premium scratch-resistant powder coating.

Contractors and installers will appreciate that our product will arrive undamaged, marked for proper floor and room. How, where and when you want it!
